PROFILE

Data Science MSc student at the University of Milano-Bicocca with **3+ years of professional software engineering experience** building real-time, data-intensive applications. Delivered the front end of a large-scale **AI-powered video analytics platform**, integrating face and license-plate recognition and turning model outputs into dashboards, alerts and visual analytics for operators. Strong foundations in algorithms, databases and SQL, including experience as a university Teaching Assistant for Database Systems. Now combining engineering experience with machine learning and statistics to build reliable, explainable, data-driven products. Open to internships and part-time roles in data science, machine learning and data engineering.

EDUCATION

MSc in Data Science
Oct 2026 – Present

University of Milano-Bicocca (Università degli Studi di Milano-Bicocca) · Milan, Italy

- Two-year, English-taught programme covering machine learning, statistical modelling, data management and large-scale data analysis.

BSc in Computer Science
Sep 2018 – Jul 2023

Islamic Azad University, Science & Research Branch · Tehran, Iran

- **Final grade:** 16.52 / 20 (GPA 3.22 / 4) · EQF level 6.
- **Key coursework:** Data Structures & Algorithms, Database Systems, Artificial Intelligence, Mathematical Logic.
- **Teaching Assistant, Database Systems** — supported students in database modelling, SQL query optimisation and course projects.
- Presented talks at university-level conferences on cryptographic algorithms and on applying the Rust programming language to artificial intelligence.
- **Thesis:** full-stack blogging platform (Node.js, GraphQL, React) with a modular architecture, API integration and secure authentication.

PROFESSIONAL EXPERIENCE

Frontend Developer
Jun 2023 – Sep 2026

Didenegar Hoosh No — AI-powered video surveillance & analytics · Tehran, Iran

- Built the front end of a **large-scale Video Management System (VMS)** in React and Ant Design, delivering an intuitive dashboard for real-time monitoring of CCTV camera networks.
- Integrated **AI-based face and license-plate recognition** modules into the product, with automated alerts and analytics visualisations that turn model outputs into actionable insights.
- Implemented live and playback video streaming using **WebRTC** and **HLS/MSE**.
- Collaborated with backend and AI engineers through REST APIs and WebSockets to keep video streams, detection events and analytics in sync.

Front-End Developer
Feb 2023 – Jun 2023

Hamiket · Tehran, Iran

- Built and maintained the admin dashboard, seller portal and main customer-facing website using React and Next.js.

SELECTED PROJECTS

Full-Stack Blog Platform — React, Node.js, GraphQL
Dec 2021 – May 2022

- Designed and deployed a scalable blogging system with categorised content browsing and real-time interaction; focused on responsive UI, API performance and secure user authentication. Also my bachelor's thesis.

amirsiadat.com · github.com/mosharif30/liarasiadatblog

Portfolio Website for a Graphic Designer — Next.js Jul 2022 – Oct 2022

- Developed a responsive, SEO-optimised portfolio platform with dynamic routing, image optimisation and component-based design.

mahshidasoudehkhah.com · github.com/mosharif30/MahshidPortfolio

TECHNICAL SKILLS

Programming	Python · SQL · JavaScript · TypeScript
Data & Databases	PostgreSQL · MySQL · MongoDB · Data modelling · Query optimisation · Analytics dashboards
Web & Backend	React · Next.js · Redux · React Query · Node.js · REST APIs · GraphQL · WebSocket
Real-time Media	WebRTC · HLS / MSE
Tools	Git · GitHub

RESEARCH INTERESTS

Machine Learning & Deep Learning · Explainable AI & Model Interpretability · Predictive Analytics & Data-Driven Decision Support · Intelligent and Adaptive Software Systems · Human–AI Interaction

LANGUAGES

Persian — Native

English — C1, IELTS 7.0 (Listening C2)

CERTIFICATIONS

Frontend Development — Udemy, 2022
React, Next.js, TypeScript, Redux, React Query, Tailwind

Backend Development — Udemy
Node.js, MongoDB, RESTful API design, deployment

HONOURS & AWARDS

Admission to NODET — National Organization for Development of Exceptional Talents, Iran (2014)

Best Developer Award — school recognition (2017)

INTERESTS

Philosophy — continental philosophy (Kant, Hegel, Heidegger) and its links to science and AI

Tennis

I authorise the processing of my personal data pursuant to Regulation (EU) 2016/679 (GDPR) and Italian Legislative Decree 196/2003. — Autorizzo il trattamento dei miei dati personali ai sensi del Regolamento (UE) 2016/679 (GDPR) e del D.Lgs. 196/2003.
